PERSONAL STATEMENT

Computing and Information Systems undergraduate seeking a Software Quality Assurance (QA) internship, with a development background in mobile applications, backend services, and API integration. Interested in understanding requirements, investigating application behaviour, and identifying edge cases across connected components. Eager to build practical experience in manual testing, test case design, defect reporting, and test automation, with Playwright as a learning focus. Brings analytical thinking, attention to detail, and a collaborative approach to problem solving, alongside a commitment to clear documentation and continuous learning.

EDUCATION

Sabaragamuwa University of Sri Lanka **2024–Present**
BSc (Hons) in Computing and Information Systems

Bandaranayake College Gampaha **2014–2022**
G.C.E. (Advanced Level) Examination – Physical Science Stream

TECHNICAL SKILLS

Testing Tools: Postman (API testing), Selenium, JUnit; Playwright (learning focus)

QA Learning Goals: Test case design, test planning; functional, regression, integration and exploratory testing; defect reporting and tracking with Jira

Programming: Python, Java, JavaScript, TypeScript, Dart, C/C++, PHP

Databases: SQL, PostgreSQL, MySQL, MongoDB, Firebase, Redis

Application Development: Flutter, React, Next.js, Flask, FastAPI, REST API integration

Development Tools: Git, GitHub, Docker, Linux; Windows and macOS

Supporting Skills: Technical troubleshooting, technical documentation, analytical problem solving

PROJECTS

Lumina Instant Messaging (Individual) **In Progress**

- **Description:** Developing a Flutter messaging application with direct messages, room-based channels, and live presence indicators. Implemented offline-first caching and persistent socket connections, connecting application state with real-time events and stored data.
- **Technology Stack:** Flutter, Dart, Node.js, Socket.io, PostgreSQL, Redis, Docker
- **Role:** Full-Stack & Systems Engineer
- **Project:** *GitHub*

ShortM (Individual) **2026–Present**

- **Description:** Developing a desktop utility that connects video production, subtitle generation, and direct API uploading in one workflow. Integrated a Python/Flask backend with the interface to automate repetitive content-management tasks.
- **Technology Stack:** HTML, CSS, JS, Python, Flask
- **Role:** Full Stack Developer
- **Project:** *GitHub*

Smart AI Alarm System (Group) **2026**

- **Description:** Collaborated on an alarm system integrating a Flutter application, Python/Flask backend, Firebase, and ESP32 hardware. Contributed to full-stack, machine-learning, and IoT development to calculate wake-up schedules using sleep cycles, weather, traffic, and calendar events.
- **Technology Stack:** Flutter, Dart, Python, Flask, ESP32, Firebase, LightGBM
- **Role:** Full Stack Developer, AI/ML Developer, IoT Developer
- **Project:** *GitHub*

Trust Bubble (Group) **2025**

- **Description:** Contributed to an Android application that analyses screen content and news reliability through a floating-bubble interface. Connected Android functionality with Python/FastAPI backend services and the Gemini API as part of a group project.
- **Technology Stack:** Kotlin, Python, FastAPI, Google Gemini API
- **Role:** Android Developer, AI/ML Developer, Backend Developer
- **Project:** *GitHub*

AgeLink (Group) **2025**

- **Description:** Contributed embedded and Android development to an elderly-care system with pill scheduling, voice alerts, SOS dispatch, and Firebase synchronisation. Connected ESP32 hardware, wireless communication, and cloud services for family tracking and remote management.
- **Technology Stack:** ESP32, C/C++, Arduino, Firebase, GSM/2G, Wi-Fi, I2S, NTP, Flutter
- **Role:** IoT / Embedded Systems Developer / Android Developer
- **Project:** *GitHub*

ACHIEVEMENTS & COMPETITIONS

Awards (Group)

- TensorForge AI Buildathon – 2025: **1st Runner-Up**

Finalist & Recognition (Group)

- Hackelite 3.0 – 2026: **Top 12 Finalist**
- TensorForge 2.0 – 2026: **Outstanding Performance**
- HackX 10.0 – 2025: **Finalist & Most Popular Team**
- Code Quest v1.0 – 2025: **Top 10 Finalist Team**

SOFT SKILLS

- Teamwork
- Positive Attitude
- Adaptability
- Critical Thinking and Multitasking
- Creativity
- Leadership
- Communication Skills
- Dedication
- Attention to Detail
- Problem Solving

CERTIFICATIONS

- Python Basics Certificates — *HACKER RANK* *CISCO NETWORKING ACADEMY* *LINKEDIN*
- Introduction to Cyber Security — *CISCO NETWORKING ACADEMY*
- Java Basics Certificates — *HACKER RANK*
- SQL Basic and Intermediate — *HACKER RANK*
- AWS Cloud Practitioner Essentials — *AWS CLOUD CERTIFICATE*

EXTRA-CURRICULAR ACTIVITIES

- **Video Editor and Videographer:**
  - Rotaract Member Installation 2026, Sabaragamuwa University of Sri Lanka (SUSL)
  - Rotaract Book Donation 2025, Sabaragamuwa University of Sri Lanka (SUSL)
  - Innovax 1.0 Competition 2026, SUSL
- **Student Member:**
  - IEEE Student Branch, SUSL
